**Pelvic Organ Prolapse: What to do when something is hanging out of the vagina**

Dr Ng Kai Lyn, Consultant Obstetrician and Gynaecologist  
Advanced Centre For Reproductive Medicine Pte Ltd

2:45pm – 3:00pm:

**Q&A**

**Dr Ng Kai Lyn**

**Presentation Outline:**

Dr Ng Kai Lyn is a consultant obstetrician and gynaecologist with over a decade of experience in the field, with sub-specialty expertise in urogynaecology and minimally invasive surgery. In addition to urogynaecology, she also has vast experience in managing and treating pregnancy-related conditions as well as benign gynaecological disorders including uterine fibroids, ovarian cysts, endometrial polyps and endometriosis.

In this live webinar, Dr Ng will talk about Pelvic organ prolapse involving the bladder, uterus and/or rectum is a common pelvic floor disorder which can affect up to 1 in 3 women who have had children before. About 1 in 10 women will eventually require surgery in their lifetime for the management of pelvic organ prolapse. Learn more about the symptoms, risk factors, complications and treatment options of this increasingly common urogynaecological condition.
