

# Overview of the latest advances in the surgical management of OA

**Live CME Webinar**

1 CME Point applied: Pending

**Date:**

3 March 2022,  
Thursday

**Time:**

1pm – 2pm

**Platform:**

Microsoft Teams

**Programme:**

1:00pm – 1:45pm: **Overview of the latest advances in the surgical management of OA**

Dr Henry Chan, Medical Director, Senior Consultant  
HC Orthopaedic Surgery Pte Ltd,  
Mount Elizabeth Medical Centre

1:45pm – 2:00pm: **Q&A**

**Dr Henry Chan**

**Presentation Outline:**

With an ageing population set to increase exponentially, knee osteoarthritis has become one of the leading health concerns for middle age and elderly Singaporeans.

This talk will give an overview of the latest advances in the surgical management of OA knees with computer navigation, 3D printing of patient specific instrumentation and Robotic arms, which improves the speed, precision, safety and the results of knee replacement surgeries. Such technologies are already in use in every other industry, why shall we “miss out”?

We will also have a video demonstration of the techniques of intra-articular injection of the knee joint.

**REGISTER**

1. To register, please submit your registration details [here](#) by 1 March 2022.

You may also use the QR code provided to register.
