Prices are effective from 1 January 2026. Prices include prevailing GST, and are subject to change without prior notice.

Important points to note:

Maternity Packages

1. These package prices are for hospital charges, daily treatment fee for nursing services and do not include professional fees. Kindly consult your doctors regarding their fees.
2. The packages are for normal procedures and items commonly used by doctors only.
3. Complications and extended lengths of stay could result in the use of additional room rates, extra medical supplies, drugs and/or additional procedures, in excess of those stated in the packages. All amounts in excess will be billed accordingly.
4. Unconsumed items in the packages (including vaccination) are not refundable.

Adult Companion

5. The companion fee for one adult is included in all packages for accommodation and meals (breakfast, lunch and dinner).

Baby

6. Baby will receive immunisations for BCG, Vitamin K and a first dose of Hepatitis B.
7. Blood tests will be done to check for G6PD deficiency, TSH levels, and to determine the baby's blood type.
8. Optional tests that are not included in the package include: baby hearing test, metabolic test, and bilirubin test.

Mother

9. A toiletry pouch with basic toiletries, including shampoo, shower gel, body lotion, toothbrush, toothpaste, comb, shower cap, and face towel, will be provided.

Inpatient Lactation Visit

10. Inpatient lactation visits exclude Saturday, Sunday and public holidays.
